Goal & objectives

- **Goal:** to contribute to the **wellbeing** of informal carers by overcoming barriers which limit them and their care recipients from benefiting fully by **learning, information** and **social participation** opportunities offered via **ICTs** and **mobile**.
- **Specific objectives:**
 1. to select a number of **applications** and **websites** (with mobile versions) with functionalities useful for informal carers
 2. to develop **training contents** and **methodologies** to teach informal carers how to use and choose applications in supporting their role
 3. to provide carers with **ICT skills** for the use of mobile devices
 4. to generate a **mobile application** as a compact, usable and informative library of applications for carers

The innovation: a mobile app

- It will provide a **library** of selected applications and websites
- It will feature **training** material for each application included
- It will **group** applications through categories and filters (e.g., language, purpose)
